

CATTLE HILL Wind Farm

Indicative impacts from roadworks for Cattle Hill Wind Farm Between Monday 10th December and Friday 17th December.

Road upgrades to existing roads within the Central Highlands region are required to allow for the delivery of wind turbine components and associated infrastructure to the Cattle Hill Wind Farm site.

Area	Map Reference	Works and Traffic Impact	Expected Delays	Detour
Highland Lakes Rd	Den Hill	Currently no works underway.	Nil	n/a
Highland Lakes Rd	Area 4			
Northern leg of Waddamana Rd to Barren Plains Rd	Waddamana 1	Minor works	Nil	n/a
Waddamana Rd	Waddamana 2	Surveying, and construction road works underway. Bridge widening at Shannon River.	Traffic will be escorted through the work site (from Penstock Lagoon down Waddamana hill and across to Bashan hill).	Heavy Vehicles advised to detour via Strickland rd. if wishing to avoid any possible delays
Waddamana Rd	Waddamana 3	Grading and rolling of new road surface.	Road users can access through the site without an escort between the hours of 10:00 - 10:30 am & 1:00 - 1:30 pm week days.	
Waddamana Rd to Bashan Rd to Macclesfield Rd	Area 12	Large excavators and dump trucks will be working above Bashan hill. Light vehicles can now access across the bridge. All heavy vehicles can access across the causeway. Work on the causeway over the next couple of weeks in preparation for widening.	30mins up to 1.5 hours delays should be expected for vehicles traversing up through Bashan Hill. Seek alternative route if possible. Possible short road closures with bridge works around Thursday 13th Dec.
